

THE
LA PERLA
EXPERIENCE

The Pacaya Samiria National Reserve and Peruvian Amazon

Experience leaving the modern world behind and begin your journey of discovering into one of the world's most remote regions.

Gather on the ship's observation deck and watch as civilization fades away, while the vast Amazon River unfolds. Visiting the mysterious Amazon River basin, one of Earth's most exotic natural realms and our planet's largest rainforest ecosystem, is an unforgettable experience. The longest navigable river, the Amazon, winds more than 4,000 miles from its source in the Andes Mountains to the Atlantic Ocean, and its tributaries fan out over 1.5 million square miles to sustain the lush flora and extraordinary fauna of this fragile environment.

Explore the boundless diversity of nature's most wondrous offering from delicate orchids to transparent glass frogs and pink river dolphins, from the trees of the lush rainforest to the depths of black water tributaries.

In an authentic atmosphere of exploration, beyond the confluence of the Ucayali River and Marañon River - the legendary inception of the Amazon River- where the primeval calls of birds and wildlife echo across the rainforest.

Travel far beyond civilization, navigating black water rivers and walking in remote forests where the numbers of butterfly species climbs into the thousands, and many species have yet to be classified or even discovered.

On your expedition vessel, an expert Peruvian naturalist will lead you through the rainforest to see rare indigenous species and guide you down the Amazon's secretive, sinuous tributaries aboard special small excursion boats. You will also visit local villages to gain insight into the traditional way of life of the river people (people who live in the river) and see a shaman perform an ancient ritual at Pacaya Samiria National Reserve and Peruvian Amazon

Amazon Conservation

Tourism has an enormous transformative power over regions and cultures, making this transformation positive and respectful of the lands and the people who inhabit them is our responsibility and for this reason we are deeply committed to protecting the ecosystem and its people.

In our commitment to a sustainable and responsible management of tourism, we are constantly working with local communities, visiting them with non-perishable food, provisions, clothes, and shoes.

We take advantage of these visits to teach children about environmental conservation, this activity is carried out to raise awareness and sensitize the community about the importance of protecting and preserving our environment and natural resources.

We also work with artisan women from the San Francisco community, on the Ucayali River. The artwork of these talented women is displayed on the ship as part of the decoration and we encourage tourists to purchase these artistic pieces and thus contribute to this community.

In addition to our efforts for the conservation of the Amazon and its resources, we are now partners and actively collaborate with **Amazon Forever** and **Amazon Forever BioPark**, a non-profit organization that promotes the conservation of white sand forests and other Amazon ecosystems through positive contact with nature, education, research, and the preservation of wildlife.

Another important contribution is our support for the **Association for the Conservation of Amazonian Biodiversity (ACOBIA)**; where we collaborate with a donation for the execution of their activities.

Crew and Guides

Discover the magic of the Amazon from the hand of our expert naturalists guides.

Our guides have a relationship of more than 20 years with the Peruvian Amazon and they will lead you to a unique connection with all forms of life and cultures that give a meaningful shape to a region that breathes life.

The love and respect for nature and the environment lead our team to protect and preserve the life that brings the Peruvian jungle together. We opt to carryout conservation efforts and to avoid mass tourism.

Our official languages on board are Spanish and English. It is possible to provide guide service in French or German language.
