Day 1, Sunday

Iquitos > Nauta > Marañon River
> Nauta Caño

Upon your arrival at the airport, we will be waiting for you to start the adventure. We will take a city tour of Iquitos, a colorful, dynamic city with a captivating past. In this tour you will be able to appreciate the most emblematic attractions of the city.

Then, we will transfer by private vehicle to the city of Nauta, the historic river port where we will embark. Upon arrival in Nauta (about two hours from Iquitos), we will board La Perla and our staff will accompany you to your cabin. All cabins are specially equipped for you to enjoy the most comfortable stay.

The ship will start sailing down the Marañon River, as the naturalist guides present the trip plan, the routes to follow and the scheduled activities, and the best thing: they will begin to introduce us to the wonderful world of Amazon wildlife. Pay attention to their advice and recommendations, and keep in mind that if you have any doubts or questions, our guides will always be more than happy to assist.

After this presentation, enjoy a welcome lunch, your first experience with the delights of regional cuisine. The menu offers several options, including a vegetarian alternative. If you have any particular requirement, please let our crew members know in advance, so that we can attend to it in a timely manner.

Before dinner, we will start a night boat excursion to the Nauta Caño area, in search of animals that can only be seen when the sun goes down: alligators, bats, frogs, tarantulas and other species that inhabit the Amazon basin.

After this first immersion in the jungle world, we will return to the ship and enjoy dinner and then you can rest and recover energies for the next day.

Day 2, Monday

Pacaya Samiria National Reserve > Yanayacu de Pucate > San Regis > Amazonic Natural Park

In the morning, we will organize a fun picnic breakfast on the Yanayacu River in Pucate, one of the best protected and preserved areas of the Pacaya Samiria National Reserve. This area is often visited by pink dolphins. After, we will take a ride in local canoes and live the experience of paddling in one of the most beautiful aquatic ecosystems in the world. Also, if you want, you can enjoy a refreshing dip in the river.

Back on the ship, we will have lunch in the dining room, followed by some time to rest, after which our guides will offer a talk about Amazonic philosophy.

Later, we will meet the shaman of the San Regis community, a wise woman from the native community who will share

with us her knowledge about the rituals of his ancestors, medicinal plants, and the Amazon worldview. Our guides will be the interpreters in case you want to ask questions or make comments to the shaman. After this authentic experience of reflection and spiritual exploration, we will continue with the ceremony of planting a tree, as a contribution to caring for the environment.

Back on the boat, you can relax with live music while we wait for dinner. After eating, the guides will indicate the activities of the following day.

Day 3, Tuesday

Pacaya Samiria National Reserve > Amazonic Natural Park > Shiryacu

Early dawn in the Amazon has a special charm, it is the perfect moment to sight many animal and insect species. For this reason, on this morning, you also have a boat excursion scheduled before breakfast. This time the destination is Iquitos Brook, a privileged area for sighting numerous endemic species. Back on board, buffet breakfast will be served.

After breakfast, we will start a walk through the jungle until we reach the area of the hanging bridges, a set of structures stretched out on top of the trees that will allow you to experience a canopy walk and admire the richness of the jungle from higher grounds.

Before noon, we will return to the ship for lunch on board and then we will have time to rest before the next departure.

Later, get ready for the boat expedition to the Shiryacu stream. Our guides will find the perfect location for piranha fishing, using local equipment and techniques. This area is very popular for spotting pink dolphins.

Upon returning to the ship, we can relax even more with live music and comfort ourselves with the delicious dinner on board.

Day 4, Wednesday

Nauta > Amazon River > Yacapana Gorge

Early in the morning, we will leave by boat towards Gasparito Brook, a very popular area for bird and primate watching.

After breakfast, the bartender awaits us for a Peruvian cocktail demonstration, Pisco Sour, the emblematic drink of Peru. Then, we will disembark to head to Iquitos. On your way to the airport, visit Amazon Forever Bio Park, also known as Manatees Rescue Center, where biologists and volunteers care for manatees, an endangered

species. Learn how manatees are treated and prepared for their return to their natural habitat. Likewise, other animals are also rescued, treated and reinserted in their natural habitat. Jungle Experiences actively collaborates with this dedicated organization and think tank. We invite you to do so as well and help this meaningful cause.

Transfer to the airport.

Included

- Box breakfast upon arrival.
- All meals aboard La Perla. Every day you will enjoy a variety of flavors made with products from the area. Breakfast, lunch and dinner are served buffet style.
- All hiking and equipment (including hiking boots and ponchos).
- Transfers from / to the ship upon arrival on recommended flights to Iquitos.
*In case you are staying in hotels in the city of Iquitos, inform the sales and reservations department to coordinate the pick-up before or after the tour, email info@junglexperiences.com.
- Entrance fee to the Pacaya-Samaria National Reserve.
- Natural juices, coffee, infusions are included. One beverage to choose: soda, local beer or one glass of wine is included during lunch and dinner. Premium bar with additional cost.

Notes

- The proposed itineraries and programs may vary depending on the weather, the river water level, the migratory cycles of animals and variations in recommended flights.
- **Visits to communities:** the visits will depend on the availability of its inhabitants. We protect the environment and the identity of local cultures, trying to affect as less as possible with our visits.
- **Excursions:** before each outing we offer waterproof rubber boots for your comfort and convenience, these must be returned to the staff for cleaning. We also offer waterproof rain ponchos.
- **Kayaks:** coordinate with the naturalist guides about kayak rides, which will depend on the weather conditions on the days of your trip. You are welcome to sign up for kayak rides at your own risk. These rides take place in calm waters where you can paddle in a relaxed way. Our kayaks are ideal for two passengers.
- **Fishing:** Our fishing policy is based on catch and release.

Not included

- Domestic flights.
- Cost of medical emergencies (including emergency evacuation).
- **Tipping etiquette.** we recommend a tip amount of USD 20 to USD 25 per passenger per night for the crew (which will be divided among all crew members) and a tip amount of USD 7 to USD 10 per passenger per night for the guides.
* Please note that these amounts are suggested and that this is entirely at the discretion of our guests.
- Any additional transportation services.
- Any additional bar consumption.
